| Demo An Overview of FinTecubator Hang Seng Bank Limited Ecosystem with Trustiess Trust Li Junya, MSc PinTech Student | Investigator: By LI Junya, MSc FinTech Student, Collaborating Organizations: HASE As the increasingly popular trend of online traveling shopping, in order to cope with trustless issue between customer and merchant in online payment, a technical solution will be illustrated, customer journey with trustless payment. This solution is to design an open API to connect HASE Trustless Payment to some travel platforms to make the travel experience more secure. When customers choose this payment, they can experience risk assessment model based on machine learning algorithms from HASE, "BANK HOLD MONEY" mechanism to money flow more secure, feedback mechanism between customers and merchant, etc. | |
